INSTRUCTIONS

- Unbuckle the side release buckle.
- Place left arm through arm hole, and your head through the top hole created by the webbing.
- Bring webbing strap around your back, and snap the buckle on the side to secure harness.
- There are four adjustment buckles. Two on the shoulders, and two on the lower straps. For the best fit, be sure to make the harness snug around your torso.
- Unlock the radio pouch buckle to allow the radio to slide into place.
- To secure radio, stretch the bungee cord over the top of the radio, and snap the buckle closed.

MAINTENANCE AND CARE

Inspect Harness for any damage. If webbing is frayed or cut, discontinue use. Over time elastic may lose strength and therefor not keep radio secure.

Cleaning
Clean Radio Harness with warm water and mild soap to remove dirt and grime. Over cleaning may cause materials to wear over time. Harness should always be dried thoroughly before storing.

WARNING

- YOU MUST THOROUGHLY READ AND UNDERSTAND ALL MANUFACTURERS INSTRUCTIONS BEFORE USE.
- USE AND INSPECT THIS PRODUCT ONLY IN ACCORDANCE WITH THE MANUFACTURERS INSTRUCTIONS.
- YOU CAN CONTACT THE MANUFACTURER AT 706-764-1437 FOR IMPORTANT SAFETY INFORMATION.

PMI LIMITED WARRANTY

PMI products are warranted to the original retail purchaser to be free from defect in material and workmanship for a period of one year. PMI will repair or replace the item without charge provided inspection at our factory discloses no misuse or alteration, which, in our judgment, has affected the condition or functioning of the product. All implied warranties imposed by law in connection with the sale of PMI products are also limited in duration to a period of one year. PMI expressly excludes and shall not be liable for any consequential damages arising out of any breach of the express or implied warranties on sales of PMI products. Because of the high risks involved in high angle rope work such as, but not limited to, rescue, rope access, caving, rappelling, rock climbing and mountaineering, no further warranties exist or are implied by PMI. Regulations issued under the Magnuson-Moss Warranty Act require us to include the following statement: some states do not allow limitations on how long an implied warranty lasts nor the excluding or limitation of incidental or consequential damages, so the above limitations may not apply to you.
