FULL BODY HARNESS

FallTech understands the importance of a good fitting harness. That's why we spent years collecting and quantifying data related to the ergonomics of the human body. We have implemented that into our new full body harness sizing program - perfecting the fit, form and function in our products.

Proper fit and adjustment of harness is crucial to safety.

SHOULDER STRAP

Measure from 3 inches left of navel. Upward over left shoulder towards lower right side of back.

WAIST

Measure the circumfrence around the waist just under the navel.

LEG STRAP

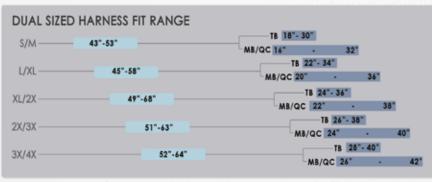

44"

33"

Measure the circumfrence around the thigh from the crotch to underneath the hip bone.

	nip bone.
