number:

- L-keys for recessed TORX® screws
- Holding function for recessed TORX® screws
- Take it easy tool finder with colour coding according to sizes
- BlackLaser for high corrosion protection and long service life
- Wear-resistant clip material for enhanced durability

High quality L-key set for recessed TORX® screws. Holding function: the wedging forces resulting from the contact pressure between the drive tip and the screw profile securely hold the screw on the tool. Featuring an extra-long arm. L-keys with thermoplastic sleeve out of easy-to-grip circular material. The sleeve ensures that work is pleasant and easy on the fingers even at low temperatures. "Take it easy" Tool Finder with colour coding according to size. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys. Come in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal.

05024473001	1 x TX 10 x 112 mm
05024474001	1 x TX 15 x 123 mm
05024475001	1 x TX 20 x 137 mm
05024476001	1 x TX 25 x 154 mm
05024477001	1 x TX 27 x 172 mm
05024478001	1 x TX 30 x 195 mm
05024479001	1 x TX 40 x 224 mm

## TORX® HF profile

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

# L-keys with a thermoplastic sleeve

L-keys with a thermoplastic sleeve are manufactured out of easy-togrip, circular material. The sleeve ensures that work is safe and comfortable even at low temperatures. High corrosion protection features thanks to the special BlackLaser surface treatment. Colour coding and large stamp to enable the desired L-key to be easily located.

# Size identification

The size of each L-keys has been engraved by a laser. In addition Take it easy L-keys have a colour coding according to sizes — for simple and rapid accessing of the required tool. Making it easy to find the right tool.

## Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
