

gasclip technologies

Portable gas detectors you can count on

Multi Gas Clip Infrared

The only multi gas detector that can run continuously for **2 months without a recharge** due to advanced infrared technology. Infrared sensor is **immune to poisoning** and detects toxic gas even in inert environments. Features: **one year calibration cycle**, easy one button operation & fails to safe to assure protection. Compatible with the simple to operate MGC Dock or MGC Wall Mount Dock.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in pellistor & 2 gas versions, specs vary

Multi Gas Clip Pump Infrared

Compact multi gas detector with internal sampling pump runs for up to **5 days straight on one charge** due to low-power photometric technology. Perfect for confined space entry monitoring. Features: **calibration once yearly**, infrared sensor that is immune to poisoning & doesn't require oxygen to detect gas, **75 ft. draw** capability through secure stainless steel gas inlet, **ergonomic design** for optimum comfort, easy one button operation & fails to safe assuring protection. Compatible with MGC Pump Dock or MGC Pump Wall Mount Dock.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in pellistor & 2 gas versions, specs vary

Single Gas Clip

Eliminate downtime with this ultra-reliable portable gas detector. It meets all needs with **adjustable alarm set points & real-time gas reading** capability. Each detector is quality tested to ensure day after day dependable performance. Compatible with the industry's easiest to use docking stations the SGC Dock or SGC Wall Mount Dock.

Tests for H₂S, CO or O₂

Single Gas Clip Plus

When this durable detector is not in use, the **life extending hibernate mode** allows the detector's life clock to be stopped temporarily. There is no minimum hibernation time required in order to extend the detector's life, so **every minute hibernated is a minute saved**. Compatible with SGC Dock or SGC Wall Mount Dock.

Tests for H₂S or CO

Compatible Docking Stations

Save time & gas - **bump test 4 detectors at once in less than a minute.**

Snap in and push a button, it's that easy!

Simple to use docking stations each feature a **built-in gas cylinder compartment with regulator & pressure gauge** for quick & efficient bump testing & calibrating. **Removable 4 GB USB** logs bump tests, calibrations & events for analysis anytime & can be used to easily perform firmware updates & detector feature customization.

Rechargeable lithium battery allows for complete portability, charging cord included. Docks are housed in rugged Pelican cases that go where you need them to go. Wall Mount Docks can be set on a surface or mounted in a convenient location.

MGC Dock

Docks and Wall Mount Docks are available for Multi Gas Clip, Multi Gas Clip Pump and Single Gas Clip/Single Gas Clip Plus.

SGC Wall Mount Dock
