

**Personnel Safety Netting**  
**Part# Varies by Size**

**DESCRIPTION**

The Safe Approach personnel safety netting is a heavy duty safety netting designed to arrest the fall of a worker for up to 30 feet. It can also be used for heavy duty debris containment when combined with a fine mesh debris liner. Only the highest quality nylon materials are used with a UV resistant treatment.

**GENERAL SPECIFICATIONS**

Item	Description	Tested At
Netting	#120 x 3-1/2" Diamond Mesh Type 6,6 Nylon Treated for UV Resistance	17,500 lbs.
Border Rope	1/2" Type 6,6 Nylon	7,000 lbs.
Snap Hooks	Zinc Plated Steel	2,200 lbs.
Debris Mesh	4.8 oz/s.y. High Density Polyethylene	160psi burst

Technical References: OSHA 1926.105, ANSI A10.11

Testing Specifications: ANSI A10.11 (17,500 lb dynamic load)

Capacity as Heavy Duty Debris Netting: 4,000 lb static load

Fire Retardant is available—Meets NFPA 701
