

RP880 D4 Work/Rescue Descender

Data Sheet

climb. work. rescue.

SOLUTIONS IN METAL

The new D4 Work/Rescue Descender features a unique and innovative progressive cam action which offers precise control at slow or fast speeds. The progressive cam works by way of one cam operating inside another cam, to provide a mechanical advantage and smoother control. The D4 is double-stop device with an auto-lock function whenever the operator lets go of the handle.
