

AZORP KIT (ARIZONA OMNI RIGGING POD)

The newest companion to the [Arizona Vortex Kit](#), the AZORP (Arizona Omni Rigging Pod) allows even greater versatility. This two-in-one rigging pod is a welcome addition to the Vortex lineup and combines the versatility of having two component halves that can be used in combination, or separately, at different positions on the inner or outer Vortex legs. Machined from one solid block of T-6 aluminum, it delivers superior strength with a sleek and simple design without using welds. The inner and outer AZORP pods can also be used together as a two-flange rigging pod in combination with a Vortex leg compression member.

The AZORP Storage Bag features a quick-draw closure and an external carabiner loop. The main compartment has a separate sewn-in pocket to hold the AZORP quick pins. Constructed of tough, water-resistant 1,000-denier Cordura® nylon.

AZORP Kit contains:

- 1 - AZORP Outer Pod (blue)
- 1 - AZORP Inner Pod (orange)
- 2 - Stainless Steel Quick Pins
- 1 - AZORP Storage Bag
