

EZ-STOP™ &
FORCE2™ LANYARDS

THE NEXT REVOLUTION IN LANYARD TECHNOLOGY

THE ULTIMATE IN FALL PROTECTION

PRODUCT SHEET

INTRODUCING

The new and improved EZ-STOP™ and FORCE2™ LANYARDS now even LIGHTER, STRONGER and MORE DURABLE than ever

SMALLEST shock absorber IN THE WORLD -
66% smaller* & **40% lighter***

THINNEST-EVER WEBBING FOR
reduced weight and bulk

lightest & strongest
REBAR HOOKS ON THE MARKET

INCLUDES HI-10™ VECTRAN® ENERGY
MANAGEMENT MATERIAL

Vectran® is a multifilament high tenacity performance yarn spun from liquid crystal polymer that is five times stronger than steel and provides:

- High abrasion resistance
- Minimal moisture absorption
- Excellent chemical resistance
- Outstanding cut resistance
- High impact resistance

EZ-STOP™ AND FORCE2™ LANYARDS

STEEL AND ALUMINUM REBAR HOOKS

Innovated to be the lightest and strongest on the market

Redesigned steel snap hooks for lighter weight

Increased open space designed to maximize inner diameter and fit better around large objects

Nose designed to fit most concrete form walls

Patent pending, locking gate/nose design for maximum strength and security

Dual action, 3,600 lb gate for ANSI/CSA compliance and increased strength

Minimized eye for maximum performance and comfort

2½" gate opening fits around most structures

Ergonomic design for enhanced functionality and to better fit in the palm of your hand

¾" webbing reduces weight

Repel™ webbing repels water to reduce the attraction of mold and dirt providing added abrasion resistance

High visibility reflective material keeps you safe in low light conditions

Lightest, strongest, smallest shock absorber in the world

Rugged and durable soft cover designed to last

Protected labels for durability and longevity — includes DBI-SALA's i-SAFE™ identification tag

INDUSTRY'S FIRST modular lanyard, reduces overall cost of ownership

- Components can be replaced individually rather than purchasing entire new unit
- Unique connectors that offer maximum versatility
- Patented, one-handed quick connect design
- Components can be changed in the field to accommodate various tasks
 - o Leg lengths and materials
 - o Single-leg to double-leg
 - o Larger or smaller-sized hooks

EZ-STOP™
