The revolutionary **MSA V-Edge Leading Edge SRL** was specifically engineered and tested for foot-level tie-off. It uses an integrated roll cage designed to protect the housing from the beating that reduces other SRLs lifespan. Internal components can also be replaced on-site, reducing repair down time, saving you money. **pg 50 ▶**

- 167 - Welding Safety Equipment

SITE CONSUMABLES

- 196-201 - Tower Consumable Products**

Quickly becoming a requirement on many towers across the country, **Firelce Fire Prevention and Extinguishers** make performing hot work much safer. By coating the inside of a monopole, and surrounding areas with a fire proof, water-soluble solution, the risk of errant sparks or slag setting the tower or the ground on fire is nearly eliminated. **pg 206 ▶**

INDUSTRIAL SUPPLIES

- 204 - Keeler & Long Anodic Self-Priming Cold Galvanizing Paint
- 206 - Firelce Fire Prevention & Extinguishers**
