WHAT'S NEW?

Looking for a connector with a gate big enough to handle any challenge? Then look no further. The **Petzl MGO Open 110 Connector** has been designed with simplicity and safety in mind. This auto-locking directional connector features a 110mm gate opening to easily connect to metal structures or large-diameter cables and bars. And, it has a gated connection point so you can switch out the lanyard with ease. **pg 33 & 53 ▶**

HARNESSES

- 208 - Motorola Whisper Universal Bluetooth Headset
- 219 - **Narda Radman 2 XT RF Monitor**

Easy to use, versatile, and durable. Those are the words to describe the **Petzl I'D EVAC**. Developed for lowering from an anchor, the EVAC features an ergonomic handle oriented specifically for managing a load from an anchor. And, it features anti-panic, anti-error and auto-lock technology for added safety. **pg 66 ▶**

Water is something that nearly every job site will come into contact with at some point. With the **Kenwood IP67 Rated Speaker Mic for the NX-P500 Two-Way Radio**, you don't have to worry about a little water. Submersible up to 1 meter for 30 minutes, this mic can handle nearly anything. **pg 207 ▶**

Measuring angles used to be complicated. But, the **CST/Berger 5" Digital Theodolite Transit** takes a complicated piece of equipment and makes it simple to use. This 30-speed telescope has a 450-foot diameter range and displays actual variance in true plumb. And, you can see everything on the large dual-sided LCD. Plus, the 6-key user interface provides even simpler operation. **pg 91 ▶**

The age of 5G is upon us and the **Narda RadMan 2 XT RF Monitor** has been specifically built to cover all current and planned 5G frequencies. With a low profile and incredibly light, yet durable, design the RadMan easily attaches to a harness. The isotropic sensors cover both E and H fields and the battery keeps you protected for up to 800 hours. **pg 219 ▶**
