*Features:

- Multi-function design reduces the amount of equipment needed
- Incorporates the functionality of a stop descender, chest ascender and belay device in one compact unit
- Auto stop descent mechanism allows you to stop the descent if you move the handle too far or if you panic and let go of the lever
- Allows you to hard lock off if you intend to be stopped for any length of time allowing you to conduct rescue or work operations with total freedom of movement and peace of mind
- One handed auto stop belay for lowering heavy loads with maximum control, safety and ease
- Available in a range of models to suit rope sizes from 7/16"-1/2" (11-13 mm)
- Aluminum construction with anodized finish for superior corrosion resistance, or Stainless Steel construction for specialist applications
- Handle color signifies suitable rope size: Red or Silver = 7/16"-1/2" (11-13 mm) Green = 1/2" (13 mm)
